Amendment  
5/023/033  
TAKE  
PRIDE IN  
AMERICA

380

UTU-070636

IN REPLY REFER TO:

March 10, 1993

RECEIVED

MAR 12 1993

Utah-070636

Dear Mr. Steele:

DIVISION OF  
OIL GAS & MINING

Your amended notice to conduct mining related operations on unpatented mining claims, UMC serial numbers, 321860 and 321861 located in NW $\frac{1}{4}$ NE $\frac{1}{4}$ , Sec. 5, T. 12 S., R. 6 W., SLBM, was received on March 5, 1993, and has been accepted by this office. Your case file number for this operation will remain **UTU-070636**. Please use this number in any future correspondence concerning this amended notice.

If you change your operation from what is described in your notice or the amendment, please contact this office prior to the change. If your operation extends for more than one year, please advise this office on the status of your mining related activity on the anniversary date of your amendment.

Enclosed is a copy of the Conditions of Acceptance for BLM Mining Notices, required by the Richfield District, House Range Resource Area. This is similar to the Standard Operating Procedures sent to you previously. Please follow these guidelines as they pertain to your operation.

A copy of your amendment has been sent to the Utah Division of Oil, Gas and Mining (UDOGM); therefore, you will not have to file the amendment with them. We remind you that all mining claimants and operators that plan to use, store or divert water are required by Utah statute to notify the Utah Department of Environmental Quality, Division of Water Quality. Prior to the commencement of the proposed activity, all appropriate state water quality permits must be obtained from the Utah Department of Environmental Quality, Division of Water Quality, located at:

288 North 1460 West  
Salt Lake City, Utah 84114-4870

Acceptance of your amendment is contingent on the disclosure of all hazardous materials associated with your operation and their use, storage, transport, quantity, generation and disposal.

0002

Information regarding hazardous materials can be obtained from the State of Utah, Department of Environmental Quality, Division of Solid and Hazardous Waste at:

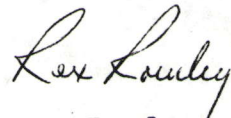

288 North 1460 West  
Salt Lake City, Utah 84114-4880

As required by 43 CFR 3809, Surface Management Regulations, reasonable measures must be taken to prevent unnecessary or undue degradation of public lands during your operations. Please notify this office upon completion of operations and reclamation, so an inspection may be conducted on the site. Reclamation under this notice and amendment is required to conform to the standards of the Utah Mined Land Reclamation Act.

Acceptance of your amendment will not now, nor in the future, serve as a determination of the validity nor ownership of any mining claim included under your notice.

In order to help us track the disturbances in this area, we would appreciate it if you could tell us who or which company drilled this well. Is the well cased? Perhaps these questions could be answered during an on site meeting prior to the commencement of your operations. Also during this meeting we would like to review reclamation practices and initiate a reclamation plan. Please contact this office to arrange the meeting. If you have any questions regarding this letter, please feel free to contact Christina Reid at (801) 743-6811. Thank you for submitting your amendment.

Sincerely,

  
Rex Rowley  
Area Manager

Enclosure:

1. Conditions of acceptance
